

Attracting Butterflies and Hummingbirds to Your Backyard

Wednesday, August 11 9:30am–11:30am Fee: \$20

Learn how to plant a backyard habitat that will attract hummingbirds and butterflies. Join instructor Cynthia Megill, former Horticultural Instructor at Suffolk Community College, and learn the many recommended species of trees, shrubs, and wildflowers that welcome these dazzling beauties. Also, secrets and myths about hummingbirds will be revealed. A tour of these beneficial plants in Buck Garden will follow this power point presentation. Pre-registration required 908 234-2677.

If you have individualized needs due to a disability, please call 908 526-5650 and we will be happy to arrange reasonable accommodations. Three weeks notice is required to ensure that appropriate accommodations can be provided.
