Somerset County Park Commission

The Somerset County Park Commission was established in 1956 as a resource management agency designated to provide specialized park areas and facilities that supplement municipal efforts. Fifty years later, the mission of the park system has a more defined focus, accompanied by key components which outline the role to which the park system has been entrusted—to improve the quality of life for Somerset County residents and the business community.

The Somerset County Park Commission is committed to excellence in promoting stewardship of land and resources, providing outstanding recreation opportunities and leisure services, and fostering an environment which is service-oriented and responsive to public needs.

The park system is home to 10,000 acres of open space, and halfway to achieving its goal of creating a 20,500 acre network of park and open space facilities. As identified in the Parks, Recreation, and Open Space Master Plan, the park system has embarked upon an aggressive program of land acquisition to provide more parks, a wider variety of recreation activities, and an increased responsibility to protect the county's critical environmental resources and wildlife.

Creating a park infrastructure geared to meet the needs of the County's current and future population is the challenge which is now before the Commission. Other than land acquisition, the other two major ways in which this goal is actualized is through the development and use of regional scale public facilities, as well as through the continued creation and implementation of ongoing programs and special events.

Facilities now operated by the Park Commission include a wide range of opportunities for leisure pursuits. Golf is a large component with five golf courses, three driving ranges, an executive nine-hole course, a pitch and putt course, and a recreational putting course. Specialized facilities include a riding stable, an environmental education center, two tennis facilities, a swim club, and paddle boating. Horticulture activities include a rock formation and rare plant garden, an award-winning rose garden, perennial garden and arboretum, and a fragrance and sensory garden. Three general use parks offer picnic facilities, bike paths, athletic fields, and fishing opportunities. The park system also encompasses several natural areas offering more passive pursuits such as birdwatching and hiking.

The Park Commission has established a tradition of providing quality and unique programs. Therapeutic Recreation provides year-round activities and events for children and adults with disabilities, as well as a summer camp for children who have a learning disability or Asperger's syndrome. Environmental Education offers programs focusing on local environmental issues, archeology, outdoor education, and bringing nature to children of all ages. Lessons and clinics are offered at many of the facilities, aimed at introducing people to a variety of recreation skills.

Perhaps the greatest audience reached is through the many special events conducted by the Park Commission and attended by 60,000 people annually over the past 50 years. The most known of these include the Free Summer Concert Series, the Fourth of July Family Festival, the 1770s Festival, and the Golf Tournaments. Twenty others are also held each year, each with its own distinctive focus. We invite you to examine the events listed within.

Sounds of Music

Summer Concert Series in the Park

Residents of Somerset County and the surrounding communities wind down their weekends by attending the Summer Concert Series in the Park. The Series has a long-standing tradition of providing performances in a variety of musical styles ranging from oldies, country jazz, big band, folk, polka, reggae, classical, and zydeco. Well-known bands have been featured, as have many local entertainers. Residents arrive with blankets and picnic in tow each Sunday evening during July and August for free musical entertainment. Attendance at Duke Island Park for the concerts averages 3,000 each performance.

Spirit of Competition

Carving & Wildlife Art Show

The Carving & Wildlife Art Show has developed over the years into one of the very finest wildlife art shows in the country, attracting artists (and judges) with national and international reputations, as well as 2,000 visitors from the tri-state area. Cash prizes and ribbons are awarded in many categories, and artists sell their work. There is an educational tone to the show, as many artists demonstrate their techniques or talk about the species in which they specialize. The weekend also features a silent auction, which is a fundraiser for the Environmental Education Center's Educational Development Fund.

Holiday Festivities

Fourth of July Family Festival and Fireworks

The Fourth of July invokes images of picnics and barbecues, music, old-fashioned games, fireworks, and red, white, and blue patriotism. Somerset County Park Commission offers all of these at the Family Festival and Fireworks. Entertainers perform folk, country, and American music from the main stage, while children's performers conduct sing-a-longs and magic shows under the pavilion. Revolutionary fife and drum corps stroll the grounds, and legions of soldiers demonstrate war camp life. Families of all ages meet costumed characters, play games, and have their faces painted! At nightfall, fireworks of grandiose proportion illuminate the sky. For more than 40 years, over 10,000 spectators have attended this very special event, held annually in North Branch Park.

Maple Sugaring

Maple sugaring and winter—an unbeatable combination at the Environmental Education Center. During the month of February, visitors to Lord Stirling Park can take a half-mile walk through the forest to the sugar shack. They see the tapping of sugar maple trees, smell the sap as it simmers in the sugar shack, and finally taste the sweet treat of good old-fashioned New Jersey maple syrup. This program is offered to visiting school classes on weekdays and the general public on weekends.

Event Sponsorship / \$250

You will receive:

- Corporate logo on program promotional materials
- Corporate logo on program literature

Festival of Trees

The winter holidays center on family, friends, and community spirit. The Festival of Trees captures this spirit each year during the first two weeks in December, when 50 trees with glorious themes are displayed. Designers of these trees include community organizations, schools, professional designers, businesses, individuals with disabilities, families, and staff. Developed in cooperation with the Somerset Hills YMCA, proceeds are divided between the two organizations and dedicated to educational expenses. A VIP and Exhibitor Reception opens the Festival. Musical performances are scheduled throughout the Festival, and a silent auction of holiday wreaths and evergreens is also held. Throughout the ten days of the festival, 5,000 holiday-spirited people visit the Environmental Education Center to view the trees.

...and Other Things

Buck Garden Workshops

Designed for home gardeners and botanical art enthusiasts, these classes are great opportunities to learn about gardening, and create botanical art in a friendly and relaxed public garden atmosphere. The gardening programs emphasize trees, shrubs, and herbaceous plants ideal for enhancing the residential garden. Workshops, such as “Art in the Garden,” explore creative new techniques and ideas in garden photography, painting, drawing or botanical illustration. Participants learn to capture the beauty of the Leonard J. Buck Garden while developing their artistic eye. The “Botanical Craft” programs are hands-on craft workshops that teach participants to create beautiful decorations out of natural materials to brighten their home.

National Trails Day

Since 1993, National Trails Day has been celebrated annually on the first Saturday in June. National Trails Day is focused on raising awareness of trails and “Trails for All Americans,” building partnerships and alliances that work together beyond National Trails Day, and broadening the constituency for trails. The unifying idea of National Trails Day is to implement a plan to establish a nationwide network of trails that is available within 15 minutes of every American. These pathways will link together as part of the nation’s infrastructure of greenways. On National Trails Day, local trail clubs; the outdoor business community; and local, state, and federal government agencies join together to make this plan a reality. The Somerset County Park Commission participates in the celebration to improve and maintain our many miles of trails, as well as to educate people about hiking, biking, and the many multi-use trails in our park system.

1770s Festival

Each fall 2,000 people step back in time to witness life as it was in Lord Stirling’s 1762 manor home. Stirling, a friend of George Washington and a general in his army, lived on the property now known as Lord Stirling Park in Basking Ridge. Every October since 1981, more than 50 colonial craftspeople reenact life as it was during his period, through demonstrations, as well as through activities in which children participate. The Lord Stirling Park Archaeological Project also displays artifacts that were found on this site. The day is complete with apple cidering, hayrides, colonial music, and storytelling.
