

Somerset County Park Commission

Natirar Fishing

PLEASE:

- Observe all state fishing regulations.
- Observe designated Natirar Park fishing locations.
- Properly dispose of all used fishing line and trash as these can harm birds and wildlife.
- Report any water pollution to County Health Department or State Fish & Wildlife officials.
- Be courteous to fellow anglers by keeping only what you intend to eat, and releasing the rest.
- Carefully release all fish. Avoid dropping fish on the ground or handling with dry hands, which removes their protective slime coating.
- Release some of the large fish you catch so that others – especially children – may enjoy catching a trophy-sized fish. Why not take a picture and then let the fish go?
- Contact New Jersey Division of Fish & Wildlife at 609 292-2965 for licensing information and fishing locations.
- Contact the Park Rangers at 908 231-0802 or go to www.somersetcountyparks.org for further Park information.
